PREFACE

1. This Standard Tender Document (STD) has been prepared by the Public Procurement Regulatory Authority (PPRA) for use by Procuring Entities (PEs) for Procurement of Non-Consulting services under competitive tendering methods as defined in the Public Procurement and Asset Disposal Act 2015(The Act). The procedures and practices presented in this STD reflect the requirements in the said Public Procurement and Asset Disposal Act and Public Procurement and Asset Regulations (The Regulation). This STD will be used by Procuring Entities on a mandatory basis. Lack of its use could be basis for challenging the procurement process and decision on contract ward. Procuring Entities and other Users should ensure that they are using the latest version of the STD, which can be verified with PPRA.
2. Non-Consulting Services are services other than consulting services that are contracted on the basis of a measurable physical output, such as catering, mapping and cadastral, healthcare and travel arrangements. Other services are (but not limited to):
 - Auditing and Accounting agencies (routine),
 - Banking Services,
 - Clearing and forwarding
 - Cleaning
 - Catering,
 - Couriers and Travel,
 - Copy writing and editing,
 - Conferences, Management
 - Design and print
 - Design services and printing
 - Graphic Services,
 - Hosting Services,
 - Health and Dental,
 - Implementation services for proprietary equipment,
 - Insurance (brokerage, inspections, Benefit Plan and Administration Services), IT Services,
 - Investment management services,
 - Language training,
 - Laundry
 - Mapping and cadastral
 - Musical and DJ Services
 - Production for teaching materials,
 - Photography,
 - Procurement,
 - Translation Services,
 - Transcription Services,
 - Tax Recovery Services,
 - Security Services,

Sign language interpreting, Videotaping,
ETC.

This document will not include procurement of Maintenance Services and Insurance Services which will be procured using the Standard Tender Document for Maintenance Services and the Standard Tender document for Insurance Services respectively even though they are in the class of non-consulting services.

3. Regarding JVs, the Procuring Entity should not allow too high number of JV members. A number above 5 is considered an unmanageable crowd, perhaps of small tenderers gathered to meet the qualification criteria; two or three JV Members are considered reasonable numbers.
4. Regarding cases being considered for abnormally low or high tenders, the benchmark should be the Procuring Entity's estimate in the Procurement Plan or other estimate based on commercial rates. It is expected that a Procuring Entity should call for Tenders with a clear idea of what to expect as a reasonable tender price. In case of abnormally low or high tenders, the Procurement Entity should (a) review the specifications, and conditions of tender, or correctness of the estimate or (b) possibility of a collusion, formation of cartels, or other form of fraudulent and corrupt activity in the tendering process or (c) perception of the firms on the credibility of the Procuring Entity. The Procuring Entity shall treat abnormally low and high tenders in accordance with procedures provided for in this tender document.
6. The STD is comprised of the parts indicated on the Table of Contents. Before using this STD, the Users are advised to familiarize themselves with the Act and the Public Procurement and Asset Disposal Regulations, 2020 (the **Regulations**), Circulars and manuals prepared and issued by PPRA and other government agencies to guide Public Entities in the conduct of the public procurement process.
7. This document will be used for National Tendering Procedures. It is expected that all non-consulting services will be sourced from national service providers. In the event that the service requires foreign service providers, the document will be amended to accommodate them, by all owing use of foreign currency, margin of preference, application of the 40% reservation to citizen contractors and, if so required, allowing international dispute resolution mechanisms, and possibly longer tendering periods.
8. During preparation of the tender document, the Procuring Entity should specify whether to allow the following:
 - i) International Tender, ii) Margin of Preference, iii) Reservations iv) Pre-qualification
 - v) Alternative tenders
 - vi) Requirement on Foreign tenderers to source at least 40% of their supplies from citizen contractors
9. This document will be customized to suit the needs of the Procuring Entity. **No changes should be made** to Instructions to Tenderers (ITT) and to the General Conditions of Contract (GCC). These two sections will be modified to suit the Procuring Entity's requirement in the Tender Data Sheets (TDS) and in the Special Conditions of Contract (SCC), respectively. The Cover Page of this document, the Preface, Guidelines or notes to users and the Invitation to tender should not be part of the tender Document to be issued to Tenderers. Refer to Appendix 2 to the Preface for more details.
10. The Public Procurement Regulatory Authority welcomes any comments from the Users of this STD which will assist in revising (if need be) and improving the structure and contents of the STD.

Director General
Public Procurement Regulatory Authority (PPRA)

APPENDIX TO THE PREFACE

GUIDELINES FOR PREPARATION OF TENDER DOCUMENTS

1. GENERAL

- 1.1 Page 1 (The Heading of the Document), the Preface and the Appendix shall not be included in the Document to be issued to Tenderers. The Document to be issued to Tenderers shall start with the page titled “This Page, NAME, LOGO AND ADDRESS OF THE PROCURING ENTITY, NAME AND IDENTIFICATION OF TENDER”, including all the other material on the page completed appropriately.
- 1.2 If in the course of preparing a Tender Document or evaluating a tender/tender following the criteria in the standard tender document, a Procuring Entity finds a provision it does not understand, it shall contact PPRA for clarifications before it changes anything, otherwise it will be considered as violating procurement rules.
- 1.3 The Procuring Entity should confirm that the service to be procured is in its approved Procurement Plan and budgeted for. It should also confirm the estimated cost of the contract(s), including the estimated time for executing the contract. The cost estimate helps the Procuring Entity determine the applicable procurement method to be used and the determination if the lowest evaluated cost is unrealistically too low or too high. Prior to finalizing the Tender Document; it is advisable for the Procuring Entity to recheck these estimates.
- 1.4 The estimates must be prepared by an expert in the field of the subject contract i.e.by Engineers, IT Specialists, or Procurement Specialists, or other experts depending on the items to be procured. The Estimates should be based on current market prices or on data collected by the Procuring Entity based on past (*but not historic*) contracts.
- 1.5 The purpose of the estimates is to enable the Procuring Entity determine amounts of money to be inserted in the Tender Document for:
- i) The Tender Security to be inserted in the Tender Document *should be expressed in absolute value which should not be more than 2% of the tender as valued by the Procuring Entity. It is advisable that the larger the estimated contract value, the smaller the required percentage of the tender security.*
 - ii) The minimum amount of money required for the tenderer to demonstrate that the tenderer has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means (independent of any contractual advance payment) sufficient to meet the contract execution cash flow requirements, net of the Tenderer's other commitments. *Usually, the assets should be about 2-3 months cash flow requirements based on the estimated completion time.*
 - iii) The minimum amount of money required as an average annual turnover for the tenderer to demonstrate that the tenderer is a prime service provider. *Usually, the minimum amount of money is about 2.50 times the estimated cost of the contract(s).*
 - iv) The amount of money required to determine specific experience of the tenderer based on the minimum size of contract(s) substantially completed and that are similar to the proposed contract. *Normally the minimum amount of money required is about 80% of the estimated cost of the contract.*

2 PART 1 - TENDERING PROCEDURES

i) **Section I-Instructions to Tenderers (ITT)**

This Section provides relevant information to help tenderers prepare their tenders. Information is also provided on the submission, opening, and evaluation of tenders and on the award of Contracts. Section I contains provisions that are to be used without modification by the Procuring Entity or by a Tenderer.

ii) **Section II-Tender Data Sheet (TDS)**

This Section includes provisions that are specific to each procurement and that supplement Section I, Instructions to Tenderers. This section shall be completed appropriately by the Procuring Entity and not by a Tenderer. In any case, the Procuring Entity shall not add any item in the TDS not included in the Standard Tender Document.

iii) Section III - Evaluation and Qualification Criteria

This Section specifies the criteria to determine the Lowest Evaluated Tender that would be considered for contract award; that is the tenderer that meets the qualification criteria and whose tender has been determined to be:

- a) Substantially responsive to the bidding document, and
- b) The lowest evaluated cost.

No other criterion shall be added by the Procuring Entity. Some parts of this section may be omitted by the Procuring Entity (and not by a Tenderer) to suit the subject procurement. For example, in some cases evaluation may not include Margin of Preference, so any reference to considerations for Margin of Preference will be omitted. The Procuring Entity will complete the parts of the Criterion only as guided and allowed in this section. For example, if the criterion provides “Post qualification and Contract award” and lists an item that says “Other conditions.....” the Entity shall only include the conditions that are allowed in the Standard Tender Document.

iv) Section IV – Tendering Forms

This Section includes the Form of Tender and other forms to be submitted; e.g., priced Schedules of Requirements, Bills of Quantities, Schedules of technical proposal, including technical and financial qualifications, personnel, financial resources, equipment, Tender Security and others to be completed and submitted by the Tenderer as part of its Tender.

3 PART 2–PROCUREMENT ENTITY'S REQUIREMENTS

This Section contains the Procuring Entity's Schedules of Requirements, Specifications, Drawings, and supplementary information that describe the items to be procured. The Requirements shall also include (if so required) the environmental, social, health and safety requirements to be satisfied by the Tenderer in executing the contract.

4 PART 3 – CONDITIONS OF CONTRACT AND CONTRACT FORMS

i) Section VI - General Conditions of Contract (GCC)

This Section contains the general clauses to be applied in all contracts. This Section contains provisions that are to be used without modification by the Procuring Entity or by a Tenderer.

ii) Section VII - Special Conditions of Contract (SCC)

The contents of this Section supplement the General Conditions of Contract and shall be prepared by the Procuring Entity.

iii) Section VIII - Contract Forms

Otherwise, if not so stated, the invitation will be open to all tenderers.

35 Evaluation of Tenders

- 35.1 The Procuring Entity shall use the criteria and methodologies listed in this ITT and Section III, Evaluation and Qualification Criteria. No other evaluation criteria or methodologies shall be permitted. By applying the criteria and methodologies, the Procuring Entity shall determine the Best Evaluated Tender. This is the Tender of the Tenderer that meets the qualification criteria and whose Tender has been determined to be: a) Substantially responsive to the tendering document; and
- b) The lowest evaluated cost.
- 35.2 In evaluating the Tenders, the Procuring Entity will determine for each Tender the evaluated Tender cost by adjusting the Tender price as follows:
- a) Price adjustment due to discounts offered in accordance with ITT 16.4;
 - b) price adjustment due to quantifiable non material non-conformities in accordance with ITT 31.3;
 - c) converting the amount resulting from applying (a) and (b) above, if relevant, to a single currency in accordance with ITT 33; and
 - d) any additional evaluation factors specified **in the TDS** and Section III, Evaluation and Qualification Criteria.
- 35.3 The estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of execution of the Contract, shall not be considered in Tender evaluation.

35.4 In the case of multiple contracts or lots, Tenderers are allowed to tender for one or more lots and the methodology to determine the lowest evaluated cost of the lot (contract) and for combinations, including any discounts offered in the Form of Tender, is specified in Section III, Evaluation and Qualification Criteria. 36 Comparison of Tenders

36.1 The Procuring Entity shall compare the evaluated costs of all substantially responsive Tenders established in accordance with ITT 35.2 to determine the Tender that has the lowest evaluated cost.

37 Abnormally Low Tenders and Abnormally High

Tenders Abnormally Low Tenders

37.1 An Abnormally Low Tender is one where the Tender price, in combination with other elements of the Tender, appears so low that it raises material concerns as to the capability of the Tenderer in regards to the Tenderer's ability to perform the Contract for the offered Tender Price.

37.2 In the event of identification of a potentially Abnormally Low Tender, the Procuring Entity shall seek written clarifications from the Tenderer, including detailed price analyses of its Tender price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the Tender document.

37.3 After evaluation of the price analyses, in the event that the Procuring Entity determines that the Tenderer has failed to demonstrate its capability to perform the Contract for the offered Tender Price, the Procuring Entity shall reject the Tender.

Abnormally High Tenders

37.4 An abnormally high price is one where the tender price, in combination with other constituent elements of the Tender, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Tenderers is compromised.

37.5 In case of an abnormally high price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct and review the Tender Documents to check if he specifications, scope of work and conditions of contract are contributory to the abnormally high tenders. The Procuring Entity may also seek written clarification from the tenderer on the reason for the high tender price. The Procuring Entity shall proceed as follows:

- i) If the tender price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the tender depending on the Procuring Entity's budget considerations.
- ii) If specifications, scope of work and/or conditions of contract are contributory to the abnormally high tender prices, the Procuring Entity shall reject all tenders and may retender for the contract based on revised estimates, specifications, scope of work and conditions of contract, as the case maybe.

37.6 If the Procuring Entity determines that the Tender Price is abnormally too high because genuine competition between tenderers is compromised (*often due to collusion, corruption or other manipulations*), the Procuring Entity shall reject all Tenders and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before retendering.

38 Unbalanced and/or Front-Loaded Tenders

- 38.1 If in the Procuring Entity's opinion, the Tender that is evaluated as the lowest evaluated price is seriously unbalanced and/or front loaded, the Procuring Entity may require the Tenderer to provide written clarifications. Clarifications may include detailed price analyses to demonstrate the consistency of the tender prices with the scope of works, proposed methodology, schedule and any other requirements of the Tender document.
- 38.2 After the evaluation of the information and detailed price analyses presented by the Tenderer, the Procuring Entity may as appropriate:
- a) Accept the Tender; or
 - b) require that the total amount of the Performance Security be increased at the expense of the Tenderer to a level not exceeding 10% of the Contract Price; or
 - c) agree on a payment mode that eliminates the inherent risk of the Procuring Entity paying too much for undelivered works; or
 - d) Reject the Tender.

39 Qualification of the Tenderer

- 39.1 The Procuring Entity shall determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated cost and substantially responsive Tender is eligible and meets the qualifying criteria specified in Section III, Evaluation and Qualification Criteria.
- 39.2 The determination shall be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to ITT 18. The determination shall not take into consideration the qualifications of other firms such as the Tenderer's subsidiaries, parent entities, affiliates, subcontractors or any other firm(s) different from the Tenderer that submitted the Tender.
- 39.3 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in disqualification of the Tender, in which event the Procuring Entity shall proceed to the Tenderer who offers a substantially responsive Tender with the next lowest evaluated cost to make a similar determination of that Tenderer's qualifications to perform satisfactorily.

40 Procuring Entity's Right to Accept Any Tender, and to Reject Any or All Tenders

- 40.1 The Procuring Entity reserves the right to accept or reject any Tender, and to annul the Tendering process and reject all Tenders at any time prior to Contract Award, without there by incurring any liability to Tenderers. OPTION1

- i) If a tenderer wins only one Lot, the tenderer will be awarded a contract for that Lot, provided the tenderer meets the Eligibility and Qualification Criteria for that Lot.
- ii) If a tenderer wins more than one Lot, the tenderer will be awarded contracts for all won Lots, provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the Lots. The tenderer will be awarded the combination of Lots for which the tenderer qualifies and the others will be considered for award to second lowest the tenderers.

OPTION 2-

Tenders will then be awarded to the Tenderer or Tenderers in the combinations provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the won Lots.

6 Alternative Tenders (ITT 15.1) -N/A

An alternative if permitted under ITT 13.1, will be evaluated as follows:

- i) Group A: tenders offered by Kenyan Contractors and other Tenderers where Kenyan citizens hold shares of over fifty one percent (51%).
- ii) Group B: tenders offered by foreign Contractors and other Tenderers where Kenyan citizens hold shares of less than fifty one percent (51%).

6.4 All evaluated tenders in each group shall, as a first evaluation step, be compared to determine the lowest tender, and the lowest evaluated tender in each group shall be further compared with each other. If, as a result of this comparison, a tender from Group A is the lowest, it shall be selected for the award. If a tender from Group B is the lowest, an amount equal to the percentage indicated in Item 3.1 of the respective tender price, including unconditional discounts and excluding provisional sums and the cost of day works, if any, shall be added to the evaluated price offered in each tender from Group B. All tenders shall then be compared using new prices with added prices to Group B and the lowest evaluated tender from Group A. If the tender from Group A is still the lowest tender, it shall be selected for award. If not, the lowest evaluated tender from Group B based on the first evaluation price shall be selected.

PART II – PROCURING ENTITY'S REQUIREMENTS

SECTION V - ACTIVITY SCHEDULE

Objectives

The objectives of the Activity Schedule are

- a) to provide sufficient information on the quantities of Services to be performed to enable Tenders to be prepared efficiently and accurately; and
- b) when a Contract has been entered into, to provide a priced Activity Schedule for use in the periodic valuation of Services executed.

In order to attain these objectives, Services should be itemized in the Activity Schedule in sufficient detail to distinguish between the different classes of Services, or between Services of the same nature carried out in different locations or in other circumstances which may give rise to different considerations of cost. Consistent with these requirements, the layout and content of the Activity Schedule should be as simple and brief as possible.

Day work Schedule

A Day work Schedule should be included only if the probability of unforeseen work, outside the items included in the Activity Schedule, is high. To facilitate checking by the Procuring Entity of the realism of rates quoted by the Tenderers, the Day work Schedule should normally comprise the following:

- a) A list of the various classes of Services, labor, materials, and plant for which basic day work rates or prices are to be inserted by the Tenderer, together with a statement of the conditions under which the Service Provider will be paid for services delivered on a day work basis.
- b) Nominal quantities for each item of Day work, to be priced by each Tenderer at Day work rates as Tender. The rate to be entered by the Tenderer against each basic Day work item should include the Service Provider's profit, over heads, supervision, and other charges.

Provisional Sums

The estimated cost of specialized services to be carried out, or of special goods to be supplied, by other Service Providers should be indicated in the relevant part of the Activity Schedule as a particular provisional sum with an appropriate brief description. A separate procurement procedure is normally carried out by the Procuring Entity to select such specialized Service Providers. To provide an element of competition among the Tenderers in respect of any facilities, amenities, attendance, etc., to be provided by the successful Tenderer as prime Service Provider for the use and convenience of the specialist contractors, each related provisional sum should be followed by an item in the Activity Schedule inviting the Tenderer to quote a sum for such amenities, facilities, attendance, etc.

These Notes for Preparing an Activity Schedule are intended only as information for the Procuring Entity or the person drafting the tendering document. They should not be included in the final documents.

PERFORMANCE SPECIFICATIONS AND DRAWINGS

(Describe Outputs and Performances, rather than Inputs,

wherever possible) Notes on Specifications

A set of precise and clear specifications is a prerequisite for Tenderers to respond realistically and competitively to the requirements of the Procuring Entity without qualifying or conditioning their Tenders. In the context of international competitive Tendering, the specifications must be drafted to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of economy, efficiency, and fairness in procurement be realized, responsiveness of Tenders be ensured, and the subsequent task of Tender evaluation facilitated. The specifications should require that all goods and materials to be

incorporated in the Services be new, unused, of the most recent or current models, and in corporate all recent improvements in design and materials unless provided otherwise in the Contract.

Samples of specifications from previous similar projects in the same country are useful in this respect. The use of metric units is encouraged. Most specifications are normally written specially by the Procuring Entity to suit the Contract in hand. There is no standard set of Specifications for universal application in all sectors in all countries, but there are established principles and practices, which are reflected in this document

There are considerable advantages in standardizing General Specifications for repetitive Services in recognized public sectors, such as education, health, sanitation, social and urban housing, roads, ports, railways, irrigation, and water supply, in the same country or region where similar conditions prevail. The General Specifications should cover all classes of workmanship, materials, and equipment commonly involved in the provision of Services, although not necessarily to be used in a particular Services Contract. Deletions or addenda should then adapt the General Specifications to the particular Services.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for goods, materials, Services, and workmanship, recognized international standards should be used as much as possible. Where other particular standards are used, whether national standards of Kenya or other standards, the specifications should state that goods, materials, Services and workmanship that meet other authoritative standards, and which ensure substantially equal or higher quality than the standards mentioned, will also be acceptable.

If technical alternatives for parts of the Services are permitted in the tendering document, these parts shall be described in this Section.

These Notes for Preparing Specifications are intended only as information for the Procuring Entity or the person drafting the tendering document.

P_c is the adjustment factor for the portion of the Contract Price payable in a specific currency "c".

A_c , B_c and C_c are coefficients specified in the SCC, representing: A_c the non-adjustable portion; B_c the adjustable portion relative to labor costs and C_c the adjustable portion for other inputs, of the Contract Price payable in that specific currency "c"; and

I_{mc} is the index prevailing at the first day of the month of the corresponding invoice date and I_{oc} is the index prevailing 28 days before Tender opening for other inputs payable; both in the specific currency "c".

If a price adjustment factor is applied to payments made in a currency other than the currency of the source of the index for a particular indexed input, a correction factor Z_o/Z_n will be applied to the respective component factor of p_n for the formula of the relevant currency. Z_o is the number of units of Kenya Shillings of the index, equivalent to one unit of the currency payment on the date of the base index, and Z_n is the corresponding number of such currency units on the date of the current index.

6.6.2 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account to fall changes in cost due to fluctuations in costs.

The Contractor shall permit the Project Manager to inspect all these records, and shall (if instructed) submit copies to the Project Manager.
- 8.1.5 Within 42 days after the Contractor became aware (or should have become aware) of the event or circumstance giving rise to the claim, or within such other period as may be proposed by the Contractor and approved by the Project Manager, the Contractor shall send to the Project Manager a fully detailed claim which includes full supporting particulars of the basis of the claim and of the extension of time and /or additional payment claimed.
